Single Mothers - Indian Pussy

Single Mothers - Indian Pussy
WhiteW0rm - 2012
Rock, Doom, Drone, Avant-Garde
Rated: ***

Stately artistic sludge bordering on insanity and avant-garde dadaistic drone that drags you into their own colorful tar pit and smothers you with their bizarre mushroomed psychedelica. Ooh yes, this is something that will definitely turn your head. Whether it will be on or off after the **Single Mothers** have done their deed is suspect to say the least. On their full-sized effort Indian Pussy the Los Angeles / Georgia duo explore every weird avenue they pass along the way. Not every street necessarily leads to beauty but even in dirty cul de sac's like Drowning there's enough eerie sound to enjoy. But on the dusty alleys and bright light boulevards like Coyote and White Lightning Sun we are treated to an expert cross breed monster of Primus and Melvins origin. Well; only if the two of them had been tripping together for a week or two somewhere on the outskirts of some dangerous high mountain range. And now, less than five minutes later. We return to that first step down towards an alternative reality...
