The LA-based apologist of noise-rock, **Harry Cloud**, will release his newest long-play *order share* on October 2nd. Check **"God Tits,"** the debut single available now.

Harry Cloud explores the depth of spontaneity in his newest record, *Sexy Tooth Situation*. The collection of tracks showcases another leap forward in Cloud's ongoing evolution as an artist as he invites listeners to venture into his unpredictable sonic world. The creation of *Sexy Tooth Situation* marks a departure from traditional songwriting methods, reflecting Harry Cloud's ever-evolving process. Discussing the album, he says:

"About half the songs on this record were written at home, and the other half were made up in the studio. The process is becoming more and more just coming into the studio with nothing and making something up. I never play guitar at home anymore."

One of the standout tracks, **"Journey to the Center of the Spirit,"** encapsulates this shift in approach.

"For this one, I played five separate drum parts and put them together. Then I added bass, then guitar, and finally had Paul Roessler, who records and plays on parts of all my records, lay down some keys."

This method was a departure from the duo's usual process, which typically begins with the guitar.

"We like finding new ways to experiment. That's usually how it works. I come in, Paul and I hang out, dick around, and sculpt something."

The result is an album that feels both raw and refined, balancing spontaneity with careful curation. Harry is quick to note that *Sexy Tooth Situation* diverges from his previous work, *The Cyst* in several ways.

"Compared to *The Cyst*, I would say this has fewer catchy, pop-type songs – not by choice; they just didn't come out. I think those songs are less present on this record because I'm writing less at home, so there is less of a typical song structure."

Ultimately, *Sexy Tooth Situation* captures Harry Cloud at his most unfiltered and daring. It's a record born from improvisation, shaped by collaboration, and defined by the willingness to let the music lead the way. *Sexy Tooth Situation* is coming out this October 2 via **Whiteworm Records**.
