[STEEROSANCTITY2019] Acid Mothers Temple & The Melting Paraiso U.F.O. / Orphan Goggles – From Planet Orb With Love Part 1 / Hey Bud, How's Your Blood? 7" single on White Worm Records, 2019. Red vinyl edition of 200. Here's a nice weird little split, Orphan Goggles blasting a whacked out noise rock jam. Channeling some 90's pig fuck sounds. Arty and mentally deranged at the same time. Acid Mothers 5 minute track is short for Kawabata and crew but it flows along the space time continuum quite nicely. With the vocals and it's structure, From Planet Orb almost veers into standard rock territory.

Just when it's hitting a long mesmerizing groove, it cuts off. Curious if it will show up again as a longer track. #orpangoggles #acidmotherstemple #noiserock #acidmotherstempleandthemeltingparaaisoufo #experimentalmusic #experimentalrock #whitewormrecords #sterlingriley #harrycloud #kawabatamakoto #dronemusic
