FANNYLAND: It Only Gets Worse for Mr. Potoilethead: CD

January 30, 2019 | [Read, Record Reviews](#)

Experimental, drug-induced alt-noise rock. At times, it's totally ridiculous with their stoniest takes on Talking Heads, Poster Children, and Mr. Bungle with robotic-cyber bass melodies and fairytale vocals. None of this makes any sense, but the fact that it is so weirdly peculiar makes it almost magical. Songs 1-4 are from *It Only Gets Worse* (2016) and tracks 5-10 are from *The Adventures of Mr. Potoilethead* (2017). It's fucking weird. -Camylle Reynolds (White Worm)
