NEW LA ADDS: HARRY CLOUD AND R.L. KELLY & SPENCER RADCLIFFE

Harry Cloud - Red Barn: Ok, I get serious douche chills from this guy's internet presence (seriously, I don't care that you write your band description as a weird rambling monologue and stop using so many backslashes, destroy all people in stupid guitar bands who think they are tortured artistic geniuses, nice rape joke lol f*ck you). BUT not gonna lie, the music is pretty good and Kate and I are mad about it. Slow f*cked up burnt out doomgazaragewhatever for hating yourself and your surroundings w/ bits of Ty Segall, Sleep, Godflesh, Pink Floyd even? **HENRY**
